Attending Company Information

1. ADTEK Engineers

ADTEK has offices in VA, MD, and MI, and offers broad-spectrum civil engineering, structural base building design, and cold-formed steel engineering services. Our design team embraces the application of sustainable design concepts, and we are committed to understanding the environmental consequences of our design and implementing conservation-oriented technologies and materials.

2. Aldridge

Aldridge Electric is the preferred partner for contractors and developers completing the most complex critical infrastructure projects in the United States. Our team of industry experts and extensive equipment fleet provide our clients the confidence to complete the most challenging projects on time and with minimal risk.

Aldridge's investment in technology, people, and knowledge makes us an industry leader in electrical and foundation construction solutions for transportation, mission critical, and power markets.

3. Allan Myers

Allan Myers is the largest heavy civil construction and materials production contractor in the mid-Atlantic. We build infrastructure: the highways and bridges that connect cities and towns, the public water and wastewater systems that provide clean water to your home and keep our streams clean. We take pride in meeting the highest quality standards because it ensures our work will have a long-lasting positive impact on the community. When you get home safe each night, you know that what you did that day matters.

4. American Contracting & Environmental Services (ACE)

A general contractor specializing in self-perform construction of water and wastewater treatment facility construction. They are a premier builder of these projects in the Mid-Atlantic and have recently opened offices in Richmond and Chesapeake, VA and Buffalo, NY. They find success through focusing on continuous improvement and investing in the professional development of their employees. ACE has steadily grown over the past 21 years and they are consistently ranked a Top 200 Environmental Contractor by Engineering & News Record (ENR). Through continually enhancing their work processes, they produce the highest quality finished product for their clients. These efforts result in a challenging and rewarding environment as ACE's daily work preserves and improves our world's most precious resource – water!

5. ARCO Design/Build*

ARCO Design/Build is the leading design-build construction company in the United States. With national reach and local expertise, we've simplified the industrial building process. With our design-build approach to construction, you have one budget, one contract, one source of accountability, and one cohesive turnkey project delivery.

6. AtkinsRéalis*

AtkinsRéalis is one of the world's most respected design, engineering, and project management consultancies. AtkinsRéalis has been providing infrastructure planning, engineering, construction, environmental consulting, urban planning, architecture, and program management services to public and private clients across the United States for more than 50 years. AtkinsRéalis has the depth and breadth of expertise to respond to the most technically challenging and time-critical infrastructure projects and the urgent transition to a low-carbon economy.

7. Atwell, LLC

We bring passion to every project. Our passion is what drives our long-lasting client relationships across the Real Estate & Land Development, Power & Renewable Energy, and Oil & Gas markets. When our teams work together, remarkable things happen

8. Bennett & Pless*

Bennett & Pless is a structural engineering firm with nine offices across the Southeast, known for delivering innovative and efficient design solutions. Our team works on a wide range of projects—from commercial high-rises to complex industrial facilities—emphasizing collaboration, creativity, and technical excellence. We offer a dynamic internship program that provides hands-on experience, mentorship, and exposure to real-world engineering challenges. At BP, we value culture as much as capability, fostering a supportive environment where engineers can grow and thrive.

9. Berkel & Company Contractors, Inc

Berkel & Company Contractors has provided service to our customers since 1959.

We are a 100% ESOP/Employee-owned company. The Berkel Employee Stock Ownership Plan (ESOP) started years before most companies considered the concept. With employees participating in the ownership of the company, they have a vested interest in the organization and work hard to continue the legacy of exceeding customers' expectations through quality and innovation.

10. Bohler

Bohler is a land development consulting and technical design firm with 36 offices from New Hampshire to Texas. We help developers, owners and other real estate professionals identify and act on opportunities and, ultimately, move their projects forward faster.

Driven by our deep commitment to empower the ambitious to become the accomplished, our teams and operations are aligned in providing our clients and employees with the resources, knowledge, and support they need to achieve their loftiest goals.

11. Bradley Site Design

Bradley Site Design is a dynamic Landscape Architecture, Urban Design, and Civil Engineering firm founded in 1994 and dedicated to the creation of socially, economically and environmentally sustainable communities and spaces. We balance strong technical expertise and innovative site design methods with a graceful aesthetic and a collaborative style. Our multi-disciplinary approach results in inviting, environmentally sound and socially responsible designs for a variety of project types including parks, educational facilities, civic spaces, and mixed use community developments.

12. Brayman Construction Corp

Brayman is a leading heavy civil and geotechnical contractor with office headquarters in suburban Pittsburgh. Incorporated in 1947, as a family-owned business with a staff of two, Brayman has grown, diversified and evolved its construction services from a small bridge and concrete company to a large, nationally recognized provider of complex, heavy civil construction projects servicing both public and private sector clients.

The Company has expertise in a wide variety of projects including large scale complex bridges, deep foundations, marine and dam construction and rehabilitation, complex and heavy steel erection and rehabilitation, and demolition services.

It's not just a catchy slogan, it's our daily motivation. Safety is at the core of our work and is supported at all levels. We don't just talk the talk; we put it into action every day. Our safety team members know that their role is vital and that they are supported by management to effect positive change at each and every opportunity, from an active project site, to a fabrication shop, to the corporate office.

13. Carlson Structural Engineering

Carlson Structural Engineering, Inc. is a consulting firm that specializes in investigating, designing, bidding, and performing construction phase services to remediate a wide variety of structural deficiencies. This includes high-rise residential buildings, commercial office buildings, low- and mid-rise apartments, shopping centers, parking structures, and historic properties in need of repairs to building envelopes, façades, balconies, waterproofing, retaining walls, and foundation settlement conditions. We work in a wide palette of materials including conventional and post tension reinforced concrete, masonry, wood, steel, stone, light gage metal, and carbon fiber.

14. Carroll Engineering, Inc.

Carroll Engineering is a structural engineering firm serving a wide variety of clients and markets from New York to Florida. With a wide variety of projects and a collaborative environment that teaches and challenges, Carroll Engineering is a top destination for structural engineers.

15. CBG Building Company

CBG Building Company and its related companies comprise one of the nation's most experienced multifamily builders. Our diverse portfolio spans mixed-use, luxury, and affordable housing, as well as military, university, and senior living. We take pride in shaping communities that bring people together and in developing the next generation of builders who make it all possible. If you're passionate about construction and eager to learn and grow, we want you on our team.

16. Chesapeake Contracting Group

With over 40 years of experience, Chesapeake Contracting Group is an award-winning leader in construction across Maryland, Virginia, and North Carolina. We are a people-first company dedicated to exceptional client experiences, strong relationships, and precise results. Our commitment to our mission, vision, and values drives us to invest in our associates' professional growth while delivering outstanding projects.

17. Clark Construction

Clark Construction Group is one of the largest building and infrastructure companies in the United States. Our portfolio spans every major building market, from public to private, corporate to cultural, education to entertainment, and the infrastructure connecting it all - power, transit, water, and roadways. Since 1906, we've delighted in delivering value to our clients and project partners, providing diverse opportunities for our team, and strengthening the communities we live in. With offices strategically located across the country, we pride ourselves on being a local builder with national reach.

18. Colliers Engineering & Design

Colliers Engineering & Design is a multi-disciplinary engineering and architectural design firm providing services in Transportation, Structures, Buildings, Land Development, Environmental, Water Resources, Surveying, Project Management, Geotechnical, Architecture, and Planning across the US. Our teams are looking for interns and engineers across Maryland, Pennsylvania, Virginia, New Jersey, New York and more for Summer 2026 and beyond.

19. Consigli Construction*

In 1905 Peter Consigli, a skilled mason, established Peter Consigli & Sons in Milford, Massachusetts on the cornerstones of hard work, integrity and pride in craftsmanship. Over a century later, Consigli has grown from a local business into one of the largest employee-owned construction managers in the Northeast and Mid-Atlantic.

With more than 2,200 employees; 15 regional offices dotting the east coast from Maine to the Caribbean; and upward of \$3.7 billion in annual volume, Consigli has expanded its roots, while maintaining its core competencies as a true builder with 700+ skilled carpenters, laborers and masons on staff.

20. DAVIS Construction

At DAVIS, we're passionate about building – and for us, that means redefining the way people experience construction on every project. Building upon our 58-year legacy, we provide award winning construction services in the Washington, DC Metro Region. As an area market leader, our services go beyond general contracting to offer construction management, preconstruction, and design-build expertise across several markets, including: Commercial Office Buildings, Commercial Interiors, Renovation + Repositioning, Cultural + Community, Education, Government, Healthcare, Hospitality+ Retail, Mission Critical, and Multi-family Residential.

21. Delon Hampton & Associates, Chartered

Delon Hampton and Associates, Chartered (DHA), a minority-owned business, headquartered in Washington, DC for over 50 years; DHA provides comprehensive engineering and program and construction management services to both public and private clients. Our comprehensive engineering and program and construction management services are provided for the following markets: Aviation, Buildings & Land Development, Transit, Transportation, and Water/Wastewater.

22. Donohoe Construction Company

Established in 1884, Donohoe is the Washington, DC region's oldest full-service real estate company. We are also one of the largest – ranked by the Washington Business Journal as one of the area's top private companies. Today, The Donohoe Companies, Inc. encompasses six companies: Donohoe Construction Company, Donohoe Real Estate Services, Donohoe Hospitality Services, Donohoe Development Company, Borger Residential, and Complete Building Services. Through these six companies, the Donohoe team provides comprehensive construction, hospitality, development, property management, facilities management and real estate services.

23. Engineering Consulting Services (ECS)

Founded in 1988, ECS Group of Companies (ECS) is a leader in geotechnical, construction materials, environmental and facilities engineering. ECS has a deep belief in developing the people, systems and expertise required to focus on client needs. Today, with 2,900+ employees, ECS has grown to more than 100 offices and testing facilities spread across the Mid-Atlantic, Midwest, Pacific, Southeast and Southwest.

24. ETC, Inc (Engineering and Technical Consultants)

ETC is an engineering consulting firm with locations in Maryland and Virginia. We provide engineering and consultation services to building owners and managers to help correct problems related to water intrusion, deterioration, age and construction or design defects.

ETC's structural engineering design services offer a wide range of innovative, reliable, and experienced engineering solutions. We provide the following structural engineering services:

- *Design and analysis – including for structures made from concrete, steel and masonry
- *Historic renovation of structures
- *Forensic investigation and expert witness testimony
- *Building envelope restoration
- *Review of professional drawings and creation of construction documents

25. EwingCole

EwingCole is a nationally recognized architecture, engineering, interior design, and planning firm with offices in Atlanta, Baltimore, Charlotte, Fort Worth, Irvine, New York, Philadelphia, Pittsburgh, Raleigh, San Diego, and Wayne.

Our multi-disciplinary practice is built on the core values of professional excellence, design quality, and collaboration. We aim to provide the best total solution for our clients, the community, and the environment. We believe that thoughtful design can enhance an organization's ability to achieve long-term success and improve the quality of life.

26. F.H. Paschen

F.H. Paschen is one of the largest, most experienced and respected general contractors in the Midwest, with a growing reputation throughout the United States. Our headquarters is located in Chicago with offices throughout the Midwest, Mid-Atlantic, South, and Southeast as well. Since 1975 we have provided full-service construction services on thousands of projects in both the public and private sector.

Our diverse experience and expertise comprises construction, rebuilding, renovation, and repair work. Our projects vary from bridge and highway work to schools and transit, as well as many other types of work.

We treat each project with the same small company philosophy: provide personalized service and build relationships full of confidence and trust with our clients.

27. Flippo Construction Company, Inc.

Flippo Construction Company is a civil construction contractor that specializes in wet & dry underground utility construction, bridge & structural concrete construction, as well as traffic control and vacuum truck services. Flippo has been building the Washington D.C., Maryland, and Northern Virginia region for 54 years. We are 100% employee owned.

28. Frederick Ward Associates

Frederick Ward Associates, Inc.(FWA), a privately held corporation and a designated small business reserve established in 1955 as a surveying firm. Over the years, FWA has evolved into a dynamic multidisciplinary team comprising architects, engineers, planners, and surveyors. Our commitment to excellence drives us to deliver top-notch services to both public and private sector clients across the Mid-Atlantic region. Be a part of our vibrant and responsive team, shaping the future with innovation and expertise.

29. Gahagan & Bryant Associates, Inc.

Gahagan & Bryant Associates, Inc. (GBA) is a unique engineering firm that specializes in providing consulting and engineering services for a variety of projects, including port development, navigation channel design, dredged material management, hydrographic surveying, coastal engineering and construction management.

30. Geo-Technology Associates, Inc.

GTA knows our greatest asset is our PEOPLE! As part of the GTA family, you will learn from professionals who are top in their field, collaborate with peers and other disciplines, and receive both in-house and external training to assist in meeting your goals! With more than 500 engineers, scientists, technicians, and support personnel, GTA focuses on geotechnical issues such as subsurface exploration, geotechnical engineering, groundwater resource and wastewater disposal issues, construction observation and materials testing and environmental issues. Visit us online at www.gtaeng.com to learn more about us - and find your dream job today!

31. Geoquest USA, Inc. - formally The Reinforced Earth Company

Geoquest USA is recognized as the inventor and market leader of the MSE (Mechanically Stabilized Earth) retaining wall industry. The company provides the design and supply of materials of proprietary retaining wall systems and earth related technologies to contractors and owners for use in civil engineering. Our company works as a sub-contractor/material supplier on DOT and privately owned projects. We perform all duties associated with our jobs from sales, marketing, civil engineering/design, supply, and construction support.

32. George Miles and Buhr LLC (GMB)

George, Miles & Buhr, LLC (GMB) is a leading architectural and engineering design firm serving the Mid-Atlantic area for over six decades. Our professional staff is committed to providing dependable solutions that enhance our communities and safeguard the environment.

33. Gorove Slade

Founded in 1979, Gorove Slade Associates, Inc. provides professional engineering and planning consulting services addressing traffic, transportation, and parking. Our strategic planning, research and technical services cover a variety of transportation topics including transportation systems, pedestrian and bicycle networks, master planning, major thoroughfare and roadway planning, traffic signal systems, and parking facilities. We work with public and private sector clients to identify opportunities to enhance their plans by making safe and attractive linkages to all travel modes, reducing the need for and cost of parking, and identifying programs that encourage people to walk, bike, and use alternatives to the private automobile where possible. Gorove Slade's professional staff of planners and engineers is in the forefront of state-of-the-art analytic methods, computer technology, and engineering design standards.

34. GPI/Greenman-Pedersen, Inc.*

Founded in 1966, GPI is a leading engineering consulting firm that specializes in the innovative design and construction of transportation infrastructure and building projects. Our experts provide comprehensive engineering, design, planning, and construction management services to a wide variety of government agencies, municipalities, institutions, industries, corporations, private organizations, and developers.

35. Harkins Builders

Harkins is a diversified, 100% employee-owned construction management company specializing in multifamily, senior living, government, and commercial projects since 1965. As employee-owners, we are passionate about creating growth opportunities and rewarding careers for each other while building relationships and improving the lives of the people with whom we work and live. Our employee-owners receive the support they need to be successful in their careers, serve their communities, and maintain a reasonable work-life balance. Building exceptional is not just about the projects we complete, it is also about the opportunities we create, the relationships we build, and the communities we serve.

36. Hazen and Sawyer*

Hazen and Sawyer is an employee-owned firm of more than 2,000 people, all working to help communities protect public health and the environment. Our primary focus is the planning, design, and oversight of construction of environmental infrastructure – for water, wastewater, and stormwater management. Hazen fosters a work environment low on bureaucracy and high in creativity. Throughout our history, our mission has remained constant – provide top-quality, client-focused environmental services. To do this, we strive to recruit the best people, provide them with challenging, interesting, and creative assignments, and furnish them with the tools they need to succeed.

37. HNTB

At HNTB, we are harnessing the power of collaboration and innovation to establish a new vision for the future of mobility across our country. For more than a century, HNTB's spark has connected people and places, expanded opportunity, and left a lasting impact on our communities. Our culture of integrity and inclusion, combined with groundbreaking solutions, has affirmed our reputation and positioned our firm as the industry leader in delivering extraordinary value.

38. JACOBS*

At Jacobs, we're challenging today to reinvent tomorrow – delivering outcomes and solutions for the world's most complex challenges. With approximately \$12 billion in annual revenue and a team of almost 45,000, we provide end-to-end services in advanced manufacturing, cities and places, energy, environmental, life sciences, transportation and water. From advisory and consulting, feasibility, planning, design, program and lifecycle management, we're creating a more connected and sustainable world.

39. KCI

KCI is a 100-percent employee-owned engineering, consulting and construction firm serving clients throughout the United States. With more than 2,400 employees and over 65 offices nationwide, we serve federal, state, and local government agencies as well as institutional and private-sector clients. Our comprehensive service lines include transportation, construction management, water, environment, site civil, survey/mapping, and facilities. Driven by a shared commitment to excellence and innovation, we deliver integrated solutions that help build stronger, more sustainable communities across the country.

40. Kimley Horn

Kimley-Horn is one of the nation's premier engineering planning and design consulting firms. As consultants, we develop insightful solutions for our clients with the rigor to deliver practical results that consistently exceed expectations. Our commitment to quality is only as good as the people behind it— that's why we welcome and develop passionate, hardworking, and proactive employees. We offer a wide range of consulting services to the private and public sectors including Development Services, Integrated Water, Transportation, Technology Solutions, Landscape Architecture + Planning, Energy, Environmental, Telecommunications, Electrical Engineering + MEP, and Structures.

41. Kokosing

Kokosing is one of the largest family-owned construction companies in the Midwest and Mid-Atlantic. Known for unwavering integrity and exceptional safety and quality, Kokosing companies provide extensive resources for our customers. Kokosing's primary business lines include industrial, transportation, pipelines, water and wastewater, marine and renewable energy.

42. Langan Engineering & Environmental Services*

Langan provides expert land development engineering and environmental consulting services for major developers, corporations, energy companies, healthcare systems, colleges/universities, and large infrastructure programs throughout the U.S. and around the world. Our employees collaborate seamlessly among 50+ offices and gain valuable hands-on experience that fosters career growth. Langan culture is entrepreneurial from advancing innovative technical solutions, to participating in robust training and knowledge sharing, to making progressive change within the communities we live and work.

DISCIPLINES: Geotechnical, Environmental, Site/Civil, Traffic/Transportation Planning, GIS/Data Solutions, Landscape Architecture + Planning, Surveying/Geospatial

43. Lenhart Traffic Consulting, Inc.

Lenhart Traffic Consulting is a full-service transportation planning and traffic engineering company based in Millersville, MD. We provide services primarily in Maryland to public and private clients. We are celebrating 20 years in operation this year, founded by a graduate of UMD. We look forward to meeting prospective candidates this fall.

44. Manganaro Building Group, LLC

Manganaro is a growing company performing construction services from Southeastern and Mid-Atlantic states to New England. With over 60 years of experience in drywall, masonry, concrete/masonry restoration, structural strengthening and building envelope restoration.

45. Maryland Environmental Services

MES was established by the General Assembly in 1970 to assist with the preservation, improvement, and management of the quality of air, land, water, and natural resources, and to promote the health and welfare of the citizens of the State. Today, MES employs over 700 teammates and operates more than 1,000 environmental projects across Maryland and the Mid-Atlantic region. As a not-for-profit business unit of the state of Maryland, MES provides multi-disciplinary environmental compliance services to enhance and protect the environment through innovative solutions to the region's most complex environmental challenges.

46. McCormick Taylor

McCormick Taylor is a full-service civil engineering firm providing creative design, planning, and environmental solutions to the challenges of everyday life. Since 1946, we've focused on our relationships with people—our clients, our employees, and the communities we serve.

47. Mead & Hunt

Mead & Hunt is a national, top-ranked engineering, architecture, and construction services firm, serving clients in the transportation, aviation, energy, health/science, water, food/beverage, cultural resources, and federal sectors. We believe in putting people first. This means investing in our employees and valuing the talent and unique perspectives each individual brings to our firm.

48. Morabito Consultants, Inc.

Morabito Consultants is a structural engineering firm with offices in MD and FL with over 40 years of experience providing professional design and inspection services including post-tensioned concrete structures, parking consulting, and forensic engineering. Our team approaches each project with creativity, critical analysis and the most advanced technology to ensure we consistently deliver the best program to meet our client's needs.

49. O'Connell & Lawrence, Inc.

O'C&L is a full-service engineering, surveying, and construction consulting firm headquartered in Olney, Maryland, with a second office on Baltimore. O'C&L provides services in the fields of land surveying, site/civil engineering, construction consulting, project management, asset management, pavement analysis, and forensic engineering/litigation consulting for a broad range of public and private Clients. O'C&L is actively seeking design civil engineers and construction consultants to join its 90-person team.

50. Parsons Corporation*

Founded in 1944, Parsons Corporation is focused on creating the future of the critical infrastructure market. We strive to be an employer of choice that engages employees in the community and creates rewarding career paths to cultivate a resilient workforce that is ready for the future.

51. Pillar Construction

Delivering the construction project of your dreams involves synchronizing a multitude of materials perfectly. Imagination, vision and technical expertise combined with a can-do attitude is Pillar Construction.

52. PRIME AE

PRIME AE Group, Inc. (www.primeeng.com) is a nationally ranked, full-service architecture and engineering firm with 22 offices across 9 states and a team of 500+ professionals. For nearly two decades, we've partnered with public and private sector clients to deliver creative, practical, and sustainable solutions across transportation, education, healthcare, municipal, federal, commercial, and recreational sectors. We're expanding our capabilities, our geography, and our team—and now is an exciting time to join us.

53. R.C. Fields & Associates, Inc.*

R.C. Fields & Associates, Inc. (RCF) is a dynamic civil engineering, land surveying, and land-use planning firm based in Alexandria, VA. We work on exciting projects across the region, from schools and universities to country clubs, residential communities, and urban redevelopments. At RCF, you'll gain hands-on experience in surveying, design, and project coordination while learning directly from seasoned professionals. We pride ourselves on a collaborative culture that values mentorship, career growth, and giving back through company events and community service.

54. RK&K

RK&K is a full-service planning, engineering, environmental, and construction management/inspection firm serving a wide range of clients Nationwide. Fueled by a talented and diversified staff of more than 1,800 in 37 offices. What sets RK&K apart is an award-winning culture that has fostered a spirit of collaboration and trust for over 100 years.

55. RMF Engineering

RMF Engineering is an innovative, top-ranked, national engineering firm that specializes in providing design and engineering services for all aspects of building and utility infrastructure construction. RMF offers a balanced benefits package that centers on a stable and professional working environment which includes above standard health and dental insurance, paid holidays, paid vacation, and 401K plan.

56. RS&H

Since 1941, RS&H has set the standard for evolving to meet the ever-changing needs of clients. We forged a reputation for building teams uniquely suited for solving complex challenges. Today, we offer award-winning architectural, engineering, and consulting services across a spectrum of sectors and industries. We know our work has the potential to change the world, and as we work toward realizing our clients' visions, we provide an exceptional journey from start to future.

57. SK&A Structural Engineers

SK&A is the largest single discipline consulting structural engineering firm in the region, with offices in Potomac, Maryland and Washington, DC. Our team provides a full spectrum of structural engineering services including New Design and Repair and Restoration. When you join the SK&A team, you'll immediately be part of a workforce that is continually transforming the region through a broad variety of unique and significant projects. You'll be connected with your coworkers that enjoy frequent social gatherings and you'll be supported in your career growth with our mentorship and professional development programs.

58. Soltesz

Soltesz specializes in civil engineering and land development, offering comprehensive services in surveying, environmental engineering, urban planning, and project management to navigate complex regulations and deliver sustainable solutions.

59. Structural Group

Structural Group makes structures stronger and last longer. We repair and strengthen the country's concrete infrastructure through specialty contracting services.

60. SuYash Consulting, LLC*

SuYash Consulting, LLC is a small Minority Business Enterprise providing reliable, high-quality, multi-disciplinary services civil and environmental engineering consulting and design services to public and private clients. Services include environmental science, water resources, highway, and structural engineering.

61. The Wilson T. Ballard Company*

The Wilson T. Ballard Company is a consulting engineering firm specializing in the planning and design of public works projects such as highways, bridges, transit systems, storm drainage systems, water distribution systems and sewage collection systems. We currently have approximately 70 employees of which 55% have been with the Company more than ten years and 25% have been with the company more than 25 years. Our staff includes professional engineers, professional transportation planners, certified planners, professional traffic operations engineers, professional surveyors, ecologists and civil engineering graduates.

62. Turner Construction*

Turner Construction is one of the largest construction management companies in the United States, delivering complex projects across a wide range of markets including commercial, healthcare, education, and infrastructure. With a strong presence in the Mid-Atlantic region, Turner is committed to innovation, safety, and sustainability on every project. Our civil engineers play a critical role in planning, coordinating, and delivering high-quality construction solutions. At Turner, you'll gain hands-on experience, mentorship, and opportunities to grow into leadership roles while building projects that shape communities.

63. Urban LTD

Urban Ltd is a civil engineering firm focused on Site Development and Design. Our services include: Civil Engineering, Transportation Engineering, Land Planning, Landscape Architecture, and Surveying to both Private and Public Sector Clients.

64. Walker Consultants*

Walker Consultants provides planning, design, engineering, forensics, restoration, and building envelope consulting. We are a 100% employee-owned company that takes pride in the work that we do and the value that we provide our clients. Our culture is defined by integrity, honesty, and high standards. We started in 1965 as structural and civil engineers and have grown to include architects, building envelope experts, forensics engineers, transportation planners, and parking consultants—all to better serve our clients with cost-effective and innovative solutions.

65. Wallace Montgomery & Associates *

We have been serving clients in the Mid-Atlantic region for 50 years. Comprised of professional engineers, planners, environmental scientists, surveyors, technicians, construction inspectors, and support personnel, our company has a diverse portfolio of projects involving highways, interchanges, water resources, electrical conduits, and more.

66. Whiting-Turner

Whiting-Turner provides construction management, general contracting, design-build and integrated project delivery services on projects small and large for a diverse group of customers. With over 60+ offices nationwide, Whiting-Turner has a strong presence throughout the country. More importantly, we recognize the value in community involvement and the benefits of strong local subcontractor relationships. We pride ourselves on familiarity with our local communities and our ability to give our clients the attention of a small business with the resources of a national corporation.

67. Wiss, Janney, Elstner Associates, Inc.*

Wiss, Janney, Elstner Associates (WJE) is a national firm of engineers, architects, and materials scientists committed to solving problems in the built environment. We specialize in investigating, testing, and designing repairs for buildings, bridges, and other structures. With a focus on innovation and technical excellence, we bring deep expertise to every project, from historic preservation to modern construction challenges. At WJE, we combine science and creativity to make structures safer, stronger, and longer-lasting. Visit www.wje.com to learn more!

68. Wohlsen Construction

An ENR Top 400 builder, our experience in various markets, including senior living, healthcare, and higher education, is sure to make your project a success.

We are passionate about everything we do, from our commitment to sustainable practices and continuous improvement to the use of virtual design technology and our promise of community involvement to support the neighborhoods where we work and live.

69. WRA

Founded in 1915, WRA has maintained its tradition of delivering high quality, cost effective, innovative and sustainable infrastructure and building projects that improve society's quality of life.

70. X-Energy*

X-energy is an advanced nuclear energy company based in Rockville, Maryland, specializing in the design, licensing, and deployment of small modular reactors and TRISO fuel. Our goal is to deliver safe, clean, and reliable energy solutions.
