

## Garden-Based Learning Outreach Scenarios

In this week's pre-work and in-class materials you learned about: the basic principles of adult learning, Kolb's Experiential Learning Model, the universal design for learning, active learning techniques, classroom structures that encourage participation and constructing learning objectives.

**Considering each, establish a clear and concise learning objective and create an engaging and meaningful learning experience for the following scenarios**

### Scenario 1:

*You been asked to lead a workshop for beginner gardeners on growing vegetables on a budget.*

**Audience:** Adults; clients of the food pantry

**Setting:** A local food pantry wants to establish a community garden for clients.

**Amount of Time:** An hour, during the time period in which the pantry is open for distribution of food.

### Scenario 2:

*Promoting environmental stewardship in the management of lawns, gardens and landscapes.*

**Audience:** Adults

**Setting:** Public event venue (ex: County Fair, Local Farmer's Market, etc.)

Amount of Time: 5-10 minutes

### Scenario 3:

*Promoting environmental stewardship in the management of lawns, gardens and landscapes.*

**Audience:** New home owners with varying levels of garden knowledge and experience.

**Setting:** Public workshop, open to all adults.

**Amount of Time:** A 3-session workshop series, each session is one hour.
