

Rice Global E&C Forum Roundtable

Explore the critical strategic issues facing global
E&C industries & help impact the future.

Friday, December 12, 2014

“Subsea Production Systems – An Enabling Component of Offshore Production”

Featuring

Bruce Crager

Executive Vice President – Expert Advisory Group, Endeavor Management

The industry has been installing subsea wells for over 50 years and there have been on the order of 5,000 subsea wells drilled and completed to date with hundreds more being added each year. This presentation will provide an update on the subsea market and identify the expected growth in the future. It will also include a summary of the type of subsea processing systems which are being used today and projections for the future.
