

# Rice Global E&C Forum Roundtable

Explore the critical strategic issues facing global  
E&C industries & help impact the future.

**Friday, October 9, 2015**

## ***"Applying Construction Productivity Principles to Engineering"***

*Featuring*

**Mark Halligan**

**Director of Operations – Sustaining Capital, SNC-Lavalin Oil & Gas**

Over time, economics and competition have forced contractors to focus on labor productivity with a view of doing “more for less”. With this focus and the drive to innovate, a number of productivity improvement initiatives have been developed that enable contractors to understand productivity. This understanding is not limited to calculating performance against a predefined budget but also what business process barriers have been put in place to hinder the improvement of productivity. This presentation seeks to outline some of these productivity improvement initiatives and how they can be applied to the engineering discipline.

### **TIME**

11:15 am - 1:00 pm

### **FEE**

\$25 per person for online registration  
\$35 per person for on-site registration  
includes boxed lunch

### **REGISTRATION**

[www.forum.rice.edu](http://www.forum.rice.edu)

### **NEXT ROUNDTABLE**

November 13, 2015

### **LOCATION & PARKING**

Grand Hall

Rice University Ley Student Center  
Parking details at [www.forum.rice.edu](http://www.forum.rice.edu)

### **PROFESSIONAL DEVELOPMENT HOUR (PDH)**

These Roundtables qualify for one (1) PDH each. Your email confirmation at completion of registration serves as your PDH and payment receipts. Paper receipts may be picked up at the registration desk at time of check-in.
