

Rice Global E&C Forum Roundtable

Explore the critical strategic issues facing global E&C industries & help impact the future.

Friday, April 6, 2018

“The Next Generation: Taking Safety Performance to a Higher Level”

Featuring

Kurt Loustalot

Vice President – Midstream, Production and Processing Division, SNC-Lavalin

Up until the 1970s and the advent of OSHA, safety issues in the construction industry were commonplace. Following the implementation of stricter safety policies and regulations, the industry has made step change improvements, reducing incidents by driving safety culture and performance metrics. Driving the next step change will be due to advances in digital capabilities as opposed to further human behavior improvements, although it will require changes in culture and behavior to adapt new, digital operating models that go well beyond safety. This presentation will discuss the industry recommendations needed to drive successful digital transformation and the digital tools available today that will help strive the next generation.

"If you always do what you've always done, you'll always get what you've always got." - Henry Ford

TIME

11:15 am – 12:00 pm Registration & Networking
12:00 – 1:00 pm Lunch & Program
1:00 – 1:45 pm Networking

FEE

\$25 per person for online registration
\$35 per person for on-site registration
includes boxed lunch
