

Tanmay Lele, PhD

Unocal Professor, Biomedical Engineering and
Chemical Engineering

Texas A&M University

A New Mechanical Model of the Nucleus

Dr. Tanmay Lele is Unocal Professor at Texas A&M University in the Departments of Biomedical Engineering and Chemical Engineering. Dr. Lele's expertise is in the area of mechanobiology. He was awarded the PhD from Purdue University in Chemical Engineering in 2002. This was followed by postdoctoral research at Harvard Medical School/Children's hospital. He joined the University of Florida as an Assistant Professor in 2006. There he was honored with the NSF CAREER award, the American Heart Investigator's National Scientist Development grant, and was supported by several NIH and NSF grants. Dr. Lele was recruited to Texas A&M through the CPRIT established investigator award in 2020.
