PSYCHOPATHOLOGY

PSY 309, CRN 24612

Winter 2024

Lecture Time: Mondays and Wednesdays, 12:00-1:20 pm

Location: Living-Learning Ctr South 101

Professor: Ahmar Zaman, Ph.D.

Email: azaman@uoregon.edu

Office Hours: Mondays 10:00 AM-11:45AM

Office Location: 421 Straub Hall

COURSE DESCRIPTION and OBJECTIVES

This social science course will expose you to contemporary models and methods in mental health research, and different characteristics and contributions to mental health in children and adults. This course meets the Social Science General Education requirement because it offers a representative cross-section of key issues, theoretical perspectives, and tools and methods used in psychopathology research. Course completion will provide 4 credits toward your degree, which is approximately 120 hours of work total, or 12 hours a week.

By the end of this course, you should be able to:
Syllabus

- Understand and critique contemporary models and methods in mental health research and practice
- Identify biological, psychological, social, and cultural characteristics and contributions to mental health
- Understand key treatments for various disorders and become familiar with techniques used in clinical practice
- Understand common research designs used in the field of psychopathology (ex. RCTs)
- Become a mental health advocate for yourself and others!

Mental health challenges are unfortunately very common in college students, so the content of this course is highly relevant to you and those around you. I hope that you are able to take advantage of all that this class has to offer!

COURSE MODALITY

This is an in-person course: that means that, unlike asynchronous online/ASYNC WEB courses, we will meet during scheduled class meeting times in (class location). I will accommodate absences as described in the Absences policy below. If you need additional flexibility, UO encourages you to consider ASYNC WEB courses. If you need accommodation related to a medical or other disability, you can request those by working with the Accessible Education Center.

COURSE MATERIAL

**Recommended Textbook:** Publication manual of the American Psychological Association 7th Edition

The textbook can be rented or purchased in print or digital formats from the Duck Store, Cengage, or other online retailers. UO Library Reserves has one print copy of the 12th edition textbook. Optionally, Cengage also offers a digital platform, called “Mindtap”, that includes mobile access to digital and audio versions of the textbook and example quizzes. Renting/purchasing the previous edition of the textbook is an option, but quiz questions will be based on the current edition. The previous and current editions are very similar and the chapter numbers are the same, but there is updated content in the new edition and different page numbering.

**Articles (Additional Resources):**

**Videos (Additional Resources):**

GRADES, ASSIGNMENTS, and QUIZZES

There are a maximum of 100 possible points for the course, distributed as follows:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Points Per Item</th>
<th>Total Possible Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class Engagement: Weekly Responses x 10 (lowest grade is dropped)</td>
<td>3 points per week</td>
<td>27</td>
</tr>
<tr>
<td>Quizzes x 5 (lowest grade is dropped)</td>
<td>10 points each</td>
<td>40</td>
</tr>
<tr>
<td>Essays x 3</td>
<td>11 points each</td>
<td>33</td>
</tr>
</tbody>
</table>

Please review the Psychology Department’s grading standards.

Ungraded Assignments

Assigned Readings and Multimedia:

There are assigned readings and multimedia content for each class meeting. Usually, this will include reading one textbook chapter or research article (~30 pages) and watching one or two films (30-90 min). This material has been selected to introduce you to contemporary models and methods in mental health research; and biological, psychological, social, and cultural characteristics and contributions to mental health. Material from assigned text readings, articles, and multimedia will be included on quizzes.

Readings and review of assigned material should be completed before each class because the main purpose of class time is to promote understanding of, and engagement with, the course material beyond what you can achieve through independent study. Class discussion and other activities will build from the assigned material for that day. You will find it difficult to fully participate if you have not completed the assigned readings and film screenings beforehand.
Individual Graded Assignments

Quizzes:
You will complete five quizzes during the term. They will be done on Canvas and are considered open-book, open note. Quizzes are designed to assess your knowledge of contemporary models and methods in mental health research, and contextual and contributing factors to mental health. Each quiz will cover all of the assigned material (text, articles, multimedia, lecture) for one unit of the course – they are not cumulative.

- The 5 quizzes are scheduled in advance. Please refer to the syllabus. The quizzes always occur on Mondays.
- You must complete them independently, or else that is considered cheating. The quiz will open at 12:01 am and remain open until 11:59 pm. While you can start the quiz during this window, once you begin, you only have 30 minutes to take the quiz. Please do not take the quiz during class - it is not advantageous to you and might be distracting for others).
- The material you are responsible for on the quiz is all the material covered since the last quiz (or for Quiz 1, since the first day of class)
- I suggest that you study for quizzes by identifying and taking notes on key concepts from lectures and assigned material. I do not create study guides for quizzes.
- The lowest graded quiz grade will be dropped. Thus, although students take 5 quizzes, only 4 quizzes will count towards your final grade.

Essays:
You will write three 500-750 word essays for this course that are each worth 11 points. The essays are designed to promote critical thinking and written communication, and help you apply research and clinical techniques used in the mental health field. Essays should be submitted via the Canvas Assignments portal. Grading will be based on essay content and writing quality. Prompts for the essays will be posted closer to the date of the assignment. Essays will be graded using a rubric, which will be posted.

Canvas Weekly Responses / Discussion Boards:
You will complete a canvas response post, once a week. Each post must be between 150-200 words in length and discuss points from the lecture, readings, and/or the videos. Once you post, please consider reading other students’ posts. I will occasionally reference students’ post in class to promote discussion (so keep that in mind when responding). You are asked to form an original post; you are not required to respond to a student's post. If you are citing course content, lecture slides, or outside material, you must provide in-text APA citations and References.

- Each post will receive a score between 0 - 3. To receive a 3, the post must be thoughtful, reference class, text, or video material, and be well written.
Syllabus

- There are no re-grades for discussion posts.
- Discussion posts are required weekly for weeks 1 through 10.
- The lowest discussion board grade will be dropped. Thus, although students are asked to complete 10 discussion boards posts, only 9 discussion boards posts will count towards your final grade.
- Since, the lowest discussion board grade is dropped. Late submissions are not accepted.
- Discussion Posts for each week are always due on Sunday at 11:59pm

COURSE POLICIES

Absences.

This is a face-to-face course. Attendance is important because we will develop our knowledge through in-class activities that require your active engagement. We’ll have discussions, small-group activities, and do other work during class that will be richer for your presence, and that you won’t be able to benefit from if you are not there. Excessive absences make it impossible to learn well and succeed in the course. While there is not an automatic grade deduction for missing classes, it is unlikely that students who miss multiple classes will be able pass this course.

We know our UO community will still be navigating COVID-19, and some students will need to isolate and rest if they get COVID. Please take absences only when necessary, so when they are necessary, your prior attendance will have positioned you for success. Students with COVID are encouraged to seek guidance and resources at UO’s COVID-19 Safety Resources webpage.

Classroom Community/Classroom Behavior:

All members of the class (both students and instructor) can expect to:

Participate and Contribute: All students are expected to participate by sharing ideas and contributing to the learning environment. This entails preparing, following instructions, and engaging respectfully and thoughtfully with others.

While all students should participate, participation is not just talking, and a range of participation activities support learning. Participation might look like speaking aloud in the full class and posting thoughtful posts on canvas.

Expect and Respect Diversity: All classes at the University of Oregon welcome and respect diverse experiences, perspectives, and approaches. What is not welcome are behaviors or contributions that undermine, demean, or marginalize others based on race, ethnicity, gender, sex, age, sexual orientation, religion, ability, or socioeconomic status. We will value differences and communicate disagreements with respect. We may establish more specific guidelines and protocols to ensure inclusion and equity for all members of our learning community.

Help Everyone Learn: Part of how we learn together is by learning from one another. To do this effectively, we need to be patient with each other, identify ways we can assist others, and be
open-minded to receiving help and feedback from others. Don’t hesitate to contact me to ask for assistance or offer suggestions that might help us learn better.

**Guidelines for using Canvas Discussion:**
- Use subject lines that clearly communicate the content of your post
- Write concisely and be aware that humor or sarcasm does not always translate in writing.
- Keep focused on the topic and reference readings and other class materials to support your points (as applicable).
- Try to use correct spelling and grammar and proofread your submissions. After submitting, use the edit feature to make corrections and resubmit (don’t create a new or duplicate post that corrects your error).

**Course Website:** Lecture slides and videos, links to supplemental readings and multimedia, and other course content will be available on Canvas. You will also use Canvas to submit course assignments and take quizzes. To access our course Canvas site, log into canvas.uoregon.edu using your DuckID. If you have questions about using Canvas, visit the Canvas support page. Canvas and Technology Support also is available by phone (541-346-4357) or by live chat on the Live Help webpage.

**Late or Missed Work/ Grade Disputes**

My policy on late work is developed such that no single assignment is worth more than 11% of your grade.

- The essay prompt will be available for ~2 weeks. The submission portal closes at 11:59pm on the day it is listed as due. Essays that are submitted late up to 48 hours will be accepted with the highest grade possible set to 8/11. Late essays that are submitted between 2-4 days late will be accepted with the highest grade possible set to 6/11. Anything turned in past 4 days late will be accepted with the highest grade between set to 2/11 with a possibility of receiving a 0.
- Further, there are no regrades for this course because there are systematic inequities in who is likely to request regrades, we do not have the capacity to regrade multiple students’ essays, and regrades almost never result in a grade improvement. That said, you are encouraged to discuss essays with me before you submit the assignment, and we are happy to provide feedback on ideas or drafts of student essays or assignments during student drop-in hours. We can also help you generate ideas for how to improve your performance on future assignments.
- For the quizzes, your lowest quiz score will be dropped. Because of this, there are no make-up quizzes.
- For discussion boards posts, your lowest discussion board post will be dropped. Because of this, there are no make-up discussion board posts or late submissions permitted.
AI Assisted Tools

Students are permitted to use AI assisted tools to develop ideas and help with learning and understanding relevant course content. However, students should note that AI may produce inaccurate results.

Students are not permitted to submit work generated by AI as their own submission. In doing so, this results in issues of plagiarism and will receive penalties as described below. In addition, students are not permitted to cite AI as source material. They must find the original source for appropriate citation.

- If a student submission receives an AI score of 40% or greater, students will receive a 0 on the assignment.

- If a student submission receives an AI score between 30% to 39%, students can redo the assignment for half credit (ex. if the essay is out of 25 points, students can resubmit for up to 12.5 points). Students may be assigned a new prompt.

- If a student submission receives an AI score between 20% to 29%, students will either receive a small penalty at the discretion of the grader or be asked to redo the assignment in its entirety. Students will be eligible to receive full credit for the new assignment. Students may be assigned a new prompt.

Correspondence: Treat email to university faculty and staff as professional correspondence -- include a salutation (e.g., “Dear Dr. Zaman” or “Dear Professor Zaman”), brief message in complete sentences, and sign-off with your name (e.g., “Sincerely, Star Student”). Want more tips for emailing professors? Don’t expect to receive a reply to unprofessional emails or requests for information provided in the syllabus or assignment prompts. I will do my best to respond to emails within 72 hours. Please include “PSY 309” in the subject line of your emails to help me keep track of them.

Office Hours: I encourage you to attend office hours with me or GEs to ask questions about course content, learn more about research in the department, talk about professional development and career plans, and build relationships.

Requests for Letters of Recommendation: I frequently write letters of recommendation for students’ applications to graduate/medical schools, scholarships, study abroad programs, and the Psychology Peer Lab Leader program. Doing well in this course is necessary, but not sufficient, for me to write a strong letter of recommendation, and your course performance should not be the only basis for my evaluation. More detrimental than a student’s performance is whether I’ve had the opportunity to communicate and become familiar with the student. If you think you might want a letter from me, then make sure to introduce yourself to me and talk to me before/after class or during office hours.
**Accessible Education:** The University of Oregon is working to create more inclusive learning environments, including for students who identify as having a disability. At UO, 10% of students use the Accessible Education Center (AEC) and nationally an estimated 20% of undergraduates identify as having a disability. If there are aspects of the instruction or design of this course that result in disability-related barriers to your participation, please contact me—your success matters.

You are also encouraged to contact the Accessible Education Center in 164 Oregon Hall at 541-346-1155 or uoaec@uoregon.edu. The AEC offers a wide range of support services including note-taking, testing services, sign language interpretation and adaptive technology.

**Academic Conduct:** Please familiarize yourself with the [University of Oregon’s classroom conduct code](#). I will follow all procedures to handle misconduct as outlined by the University. This means that instances of suspected cheating or plagiarizing will be reported to the University. In addition, you will receive a zero on any quiz or assignment in which you cheat or plagiarize, and you may fail the course.

**Diversity and Inclusion:** The University of Oregon does not tolerate any form of discrimination, harassment, or retaliation based on disability, race, color, religion, national origin, ancestry, genetic information, marital status, familial status, sex, age, sexual orientation, veteran status, gender identity, or other factors as stated in the University’s Title IX policy. For more information about policies, procedures, and practices, see the [Office of Civil Rights Compliance](#).

**Religious Observances:** The University of Oregon respects the right of all students to observe their religious holidays, and will make reasonable accommodations, upon request, for these observances. If you need to be absent from a class period this term because of a religious obligation or observance, please fill out the [Student Religious Accommodation Request fillable PDF form](#) and send it to me within the first weeks of the course so we can make arrangements in advance.

**Academic Disruption:** In the event of a campus emergency that disrupts academic activities, course requirements, deadlines, and grading percentages are subject to change. Information about changes in this course will be communicated as soon as possible by email, and on Canvas. If we are not able to meet face-to-face, students should immediately log onto Canvas and read any announcements and/or access alternative assignments. Students are also expected to continue coursework as outlined in this syllabus or other instructions on Canvas. In the event that the instructor of this course has to quarantine, this course may be taught online during that time.

**Staying Safe in Classes:** As the University of Oregon continues in-person instruction, instructors and students play a key role in keeping our community healthy and safe. To prevent or reduce the spread of COVID-19 in classrooms and on campus, all students and employees must:

- Comply with vaccination policy
Mandatory Reporter: I am a [designated reporter/assisting employee]. For information about my reporting obligations as an employee, please see Employee Reporting Obligations on the Office of Investigations and Civil Rights Compliance (OICRC) website. Students experiencing sex or gender-based discrimination, harassment or violence should call the 24-7 hotline 541-346-SAFE [7244] or visit safe.uoregon.edu for help. Students experiencing all forms of prohibited discrimination or harassment may contact the Dean of Students Office at 5411-346-3216 or the non-confidential Title IX Coordinator/OICRC at 541-346-3123. Additional resources are available at UO’s How to Get Support webpage. I am also a mandatory reporter of child abuse. Please find more information at Mandatory Reporting of Child Abuse and Neglect.”

Mental Health Services: Life at college can be very complicated. Students often feel overwhelmed or stressed, experience anxiety or depression, struggle with relationships, or just need help navigating challenges in their life. If you're facing such challenges, you don't need to handle them on your own--there's help and support on campus.

As your instructor if I believe you may need additional support, I will express my concerns, the reasons for them, and refer you to resources that might be helpful. It is not my intention to know the details of what might be bothering you, but simply to let you know I care and that help is available. Getting help is a courageous thing to do—for yourself and those you care about.

University Health Services helps students cope with difficult emotions and life stressors. If you need general resources on coping with stress or want to talk with another student who has been in the same place as you, visit the Duck Nest (located in the EMU on the ground floor) and get help from one of the specially trained Peer Wellness Advocates.

University Counseling Services (UCS) has a team of dedicated staff members to support you with your concerns, many of whom can provide identity-based support. All clinical services are free and confidential. Find out more at counseling.uoregon.edu or by calling 541-346-3227 (anytime UCS is closed, the After-Hours Support and Crisis Line is available by calling this same number).

Canvas and Internet Support: If you have questions about accessing and using Canvas, visit the Canvas support page. Canvas and Technology Support also is available by phone or live chat: 541-346-4357 | livehelp.uoregon.edu. If you face Internet access challenges: companies are offering free access during this challenging time. To learn more about options, visit the Information Services web page on going remote.

Library Services: UO Libraries has subscriptions to psychology research databases, including PsycNet and Pubmed, that you can use to find original research articles. UO Libraries also provides access to the DSM-5 (Diagnostic and Statistical Manual of Mental Disorders), the
Publication Manual of the American Psychological Association (APA Style Guide), and ebooks on graduate training in psychology. Have a library resource question? You can Ask a Librarian by chat, email, phone, or text.

**Writing Assistance:** I strongly encourage you to submit drafts of your essays to the UO Online Writing Lab (OWL). The OWL offers personalized writing feedback within 24 hours (they recommend that you submit work at least 48 hours before the due date). This is particularly important if English is not your native language or if your writing skills are weak for other reasons. The Tutoring and Academic Engagement Center also offers synchronous and asynchronous tutoring on writing and science.

**Basic Needs:** Being able to meet your basic needs is foundational to your success as a student at the University of Oregon. If you are having difficulty affording food, don’t have a stable, safe place to live, or are struggling to meet another need, visit the UO Basic Needs Resource page for information on how to get support. They have information food, housing, healthcare, childcare, transportation, technology, finances (including emergency funds), and legal support. If your need is urgent, please contact the Care and Advocacy Program by calling 541-346-3216, filling out the Community Care and Support form, or by scheduling an appointment with an advocate.

**Dean of Students Services:** The Office of the Dean of Students (541-346-3216) has resources to help you with basic needs (e.g., food and housing insecurity) or personal crises (e.g., serious illness or injury, unexpected life events) that can interfere with your academic work. You can find resources for food, housing, healthcare, childcare, transportation, technology, finances, and legal support through the UO Basic Needs Resource Guide. The Dean of Students also offers drop-in hours Monday through Friday from 9 am-4 pm.

*Students who have extended absences due to crisis, serious injury or illness can follow a process with the Dean of Students to have an “Emergency Academic Notification” email sent to instructors. For students who follow this process, the Office of the Dean of Students will notify the student’s faculty members by email that the student is experiencing an emergency and steps the faculty member can take.*
