Course Requirements:

1. Weekly Homework -- 35%
Homework solutions are due by 5:00 pm on the due date (in class or at my office).
You may work together in the early stages of problem solving, but must finish each problem alone and write up each problem alone.
Late assignments will be decreased in credit by 20% after 24 hours from due time and 100% thereafter.
To pass, you must complete at least two-thirds of assignments (for credit or not).

Typos in homework and exam questions are inevitable. I apologize in advance. However, you need to begin work on each assignment several days in advance of the due date, in part to help ferret out the typos. I am not as sympathetic as I could be if you wait until the day the problems are due and then struggle with typo finding with little time to contact me by email about any questions. That does not enhance your learning. If you do find a suspected typo, PLEASE email me so that I can inform the rest of the class. We are all in this together.

2. Midterm exam -- 25%
Take-home part (tentative date Mon. Nov.1)
In-class part (tentative date Mon. Nov.5)

3. Final exam -- 40%
(take-home and in-class parts; scheduled time: 10:15 Monday, December 6, 2010)
