Research Associate Position – Occulo Bio LLC

OCCULO BIO IS HIRING A RESEARCH ASSOCIATE

Occulo Bio LLC, a startup focused on development of next-generation biotherapeutics, is now accepting applications for a Research Associate. The company employs a cutting-edge platform integrating computational protein design, high-throughput protein engineering, and sensitive immunoassays to reengineer non-human biotherapeutics to be immunologically “stealthy”. Through affiliates, partnerships, and actively funded programs, Occulo Bio is pursuing development of a wide range of protein therapeutics with indications in oncology, metabolic disorders, infectious diseases, and other unmet medical needs.

The Research Associate will primarily assist project scientists with protein engineering and protein analysis programs. Necessary technical knowledge and skills include molecular cloning, recombinant protein production, protein purification, and protein analysis. To assist with other project objectives, experience with immune cell culturing and ELISpot analysis is desirable, but not required. As such, the successful candidate will have a bachelors or masters degree in biochemistry, bioengineering, molecular biology, or a related discipline, and will additionally have at least one year of experience in a research laboratory, with a preference for two or more years. General laboratory and organizational skills, a willingness and capacity to learn quickly, an ability to work both independently and in a small team environment, and a self-motivated drive for excellence are required.

Occulo Bio offers competitive compensation packages, including vision, dental, and medical insurance plans. Our location in Lebanon NH, near Dartmouth College and the associated Geisel School of Medicine, offers the combination of an excellent quality of life in beautiful surroundings as well as world-class cultural and educational opportunities.

Occulo Bio is an equal opportunity employer with a strong commitment to diversity and inclusion. We do not discriminate on the basis of race, color, religion, sex, age, national origin, sexual orientation, gender identity or expression, disability, veteran status, marital status, or any other legally protected status. Applications by members of all underrepresented groups are encouraged.

Interested candidates should submit a cover letter, a curriculum vitae, and a list of at least three references via email at hiring@occulobio.com. Applications will be reviewed on a rolling basis until the position is filled. More information about Occulo Bio and affiliated companies may be found at www.occulobio.com.
