Leading @Tech

PROFESSIONAL DEVELOPMENT FOR PEOPLE LEADERS

Roadmap Guide

GT | Human Resources

Leading @Tech

PROGRAM TRACKS

Management Practices

This track focuses on the administrative processes and managerial competencies that every people-leader should master early to effectively handle the day-to-day responsibilities.

Effective Leadership

This track highlights the essential skills and critical competencies for effective leadership, empowering people-leaders to adopt well-rounded, people-centric leadership styles and abilities for personal and team success.

Engagement and Well-being

This track focuses on enhancing engagement and well-being @Tech, fostering a positive work environment through respectful conduct, effective collaboration, community-building, and resource awareness.

Applied Leadership Cohort

This cohort track provides an opportunity for people leaders to leverage the knowledge and skills acquired during the program to address operational challenges at Georgia Tech, through real-life projects or simulations.
