XRAY

1. Subject Line:

Discussion on Visualizing Project Data and Improving Presentation Skills

2. Two-Line Summary:

The meeting focused on visualizing project results using CSV data and effectively presenting technical information to broader audiences. Team members discussed setting up Discord channels for easier collaboration and information sharing.

3. Key Points & Repeated Topics:

- Visualization of data: Red for manual, green for predicted, with a line between the two.
- Sharing CSV files with landmarks to create visual plots.
- Importance of presenting technical results in a digestible format for a broader audience.
- Encouragement for each team to create a presentation for their project results.
- Stroud's appreciation for the team's efforts and excitement about the project.
- Set up of Discord channels for individual projects and resource sharing.

4. Companies / Projects Mentioned:

Company / Project Name Description Associated Company / Contact

n/a	n/a	n/a
11/ a	11/4	11/0

(No specific companies or projects were mentioned by name, only general references to "projects" and internal work.)

5. People Mentioned:

Name	Description	Associated Company / Contact
James T. Stroud	Speaker, likely a project leader or manager	n/a
Breanna D. Shi	Speaker, contributing ideas on data visualization	n/a
Ayush Parikh	Meeting attendee, expressed appreciation	n/a

6. Facts / Statements Involving Numbers:

1. CSV files with data on known landmarks and automated landmarks.

2. 1 presentation per project team for future meetings.

7. Action Items:

James T. Stroud:

- Set up Discord channels for each independent project.
- Upload links to access necessary resources for the projects.

General:

- Team members to create visual plots using CSV data.
- Each project team to prepare presentations for future meetings to present their results.
