Projects

Library Interactive (Python)

December 2023

- Made an interactive library that allowed users to type in any word or phrase, and it would return a list of books. If clicked, the user would be taken directly to the source of the book and be able to read it.
- Completed full stack development using Python and an open-source library API.

All About Me (Python)

December 2023

- Constructed a website that lists skills, extracurriculars, and schooling using Python
- Utilized Streamlit to generate the website and a Python library to format it properly.

Relevant Experience & Leadership

Resident Assistant, Nelson-Shell – Atlanta, GA

August 2024 - Current

Leadership

- Currently facilitating conflict resolution, addressing interpersonal issues, and enforcing community standards for 40 Georgia Tech residents.
- Consistently planning and leading programs and events to foster student engagement and personal development.
- Fostering a safe and academically enriching environment to support residents' growth and success.

Badger Health Insurance LLC | Ellenwood, GA

August 2022 – July 2023

Intern
