

# **Knowledge Transfer: ETI and DOE National Laboratories**

Milton A. Garces

University of Hawaii, Manoa

22 October 2019

# »» Knowledge Transfer between DOE National Laboratories and ETI

## ETI Laboratory Outreach Director for Technology

- Facilitate cross-cutting research between the DOE Labs and ETI universities.
- Promote engagement between ETI students and faculty with DOE Lab personnel and programs.
  - Internships, mentorships, collaborations.
  - Courses, lectures, publications.
- Ensure the practicality and transferability of the work at the universities to the National Laboratories and end users.
- First ETI-Lab Meet and Greet:
  - 6 November 2019, Atlanta, Georgia

# » Knowledge Transfer between DOE National Laboratories and ETI

- Internship strategies
- Unclassified, publishable collaborations
- ETI is data-driven, model-constrained
- Data sharing policies
- Data model abstraction
- Annotation/label hierarchy
