

What I Learn From Them -- Planting Knowledge

Yujie Nie

This semester I worked with Little Brother-Friends of Elderly. While helping older adults learn to use electronic devices, I found that they were also teaching me something. For example, in this cartoon, Donghai tells me about his planting experience and tells me how to grow autumn tomatoes. It made me realize that learning by volunteering is mutual.

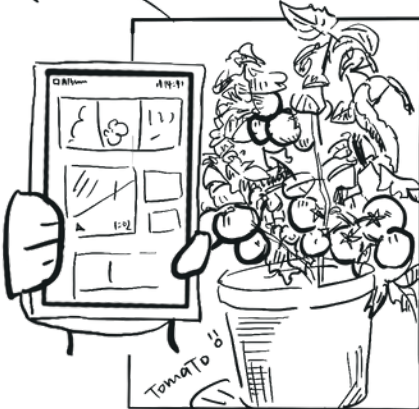

... AFTER TEACHING

I want to show you something that my wife and I grow together

Donghai older adult

Donghai planted last year
