

## Why Northeastern?

Northeastern University is a **premier industry partner** helping organizations source, develop, and manage **high impact talent** in all sectors ranging from business, engineering, healthcare, and the arts, to government, nonprofit and social sciences – and everywhere in between.

- ▶ Northeastern is a university like no other: **global** and **experiential** with an approach to research designed for impact.
- ▶ Employers receive **customized recruiting support** and dedicated service from talented professionals.
- ▶ Northeastern offers **undergraduate** and **graduate** programs across nine colleges. Through Northeastern's **professional graduate programs**, lifelong learners can pursue professional degrees, certificates, workshops, and more – online, on-site, or in a hybrid model.

## A Global Campus Network

Our network of campuses, research partners, faculty, alumni, and employers make learning and innovation **flexible and customizable, worldwide.**

Campus locations across Boston, London, Oakland, Arlington (VA), Burlington (MA), Charlotte, Miami, Nahant (MA), Portland (ME), Seattle, Silicon Valley, Toronto and Vancouver ensure that we are well positioned to meet workforce demand and enhance collaborations between higher education and industry.

With a total enrollment nearing **40,000 learners**, Northeastern is home to more than 20,000 undergraduate students, and more than 17,000 graduate students.

## Partner Benefits

- ▶ Students produce immediate and valuable results at a relatively low cost.
- ▶ Students bring a fresh perspective, ideas, and knowledge to the workplace.
- ▶ Tackle industry challenges and research-based opportunities through the Northeastern professional network and experiential learning expertise.
- ▶ Creating talent pipelines with Northeastern opens the door for other valuable partnerships to reach your business goals.

## A World Leading Talent Partnership Model

Through our signature cooperative education program, a wide array of innovative experiential programs, and a pool of highly qualified students and graduates, we help you access the best talent for your organization.

- ▶ Expand your team's capacity: Choose from long- and short-term options. Through our co-op program, you can hire students for paid, full-time work assignments for three, four, six, or eight-month terms.
- ▶ Utilize student teams for six-week no-cost project work: Through our Experiential Network (XN), our students complete challenging assignments in exchange for course credit.

## Upskill Your Workforce

With education programs, training, and professional advancement activities tailored to your business's needs, we can help you build – and retain – a workforce with high-demand knowledge and skills.

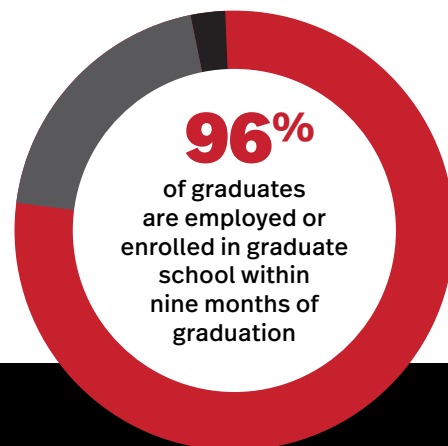

## Your Partner in Research

As a TIER 1 research university, Northeastern University is ideal for advancing research and innovation through robust partnerships with industry, government, and academia to solve global health, security, and sustainability challenges.

- ▶ \$281.9M in external research awards, 2022–2023
- ▶ \$220.9M in research expenditures, 2022–2023

## Northeastern Graduates are in High Demand
