

Mind Map Template

What is work for?

- Creating impact through technology
- Solving real-world problems
- Pushing boundaries in AI & systems
- Continuous growth & learning
- Financial independence & stability

What am I good at?

- Systems programming (C++, OS, compilers)
- ML & GNN research
- Building full-stack apps (e.g., AI Chef)
- Team collaboration & project leadership
- Algorithm design & problem solving (LeetCode, compilers)

What makes me thrive?

- Tackling challenging technical problems
- Learning new concepts (e.g., LLVM, diffusion models)
- Fast-paced, intellectually stimulating environments
- Freedom to experiment and innovate
- Working with passionate and talented peers
