

“Under the Same Sky”
By Demetrius Cunningham

Verse 1:

*I can see beautiful minds, every color of human life.
I can feel the energy flowing from the outside breeze.
Experiencing real life stories.
Two worlds collide and unite.*

Chorus:

*When we breathe, when we think,
When we speak, we release.
Hope living human dreams recovering lost humanity.*

Verse 2:

*Time keeps flying by.
I wish I could slip its wings.
I'll train my heart strings to cling.
To precious memories.
Experiencing real life stories.
Two worlds collide and unite.*

Bridge:

*I feel so alive.
I've reached the unknown skies.
I know that we will rise.
No limits to where we can fly.*
