  3. How to use Map tab
Summary

- Our team This analysis used data from projects from 2019 to 2022. We developed surveys in REDCap to periodically collect information on project descriptors, progress/processes, and implementation determinants (organized by the Consolidated Framework for Implementation Research [CFIR]).
- The dashboard was developed using MS Power BI.
Project Characteristics
Project Characteristics
Landing Page

1- Project Counter
2- Distribution of Projects by Year
3- Number of projects by Priority Population
4- Number of projects by settings (implementation partner)
5- List of projects details
Health Dept Filter

- You can select the filters on the left to narrow your search.
- Click on the filters to select your inclusion criteria.
- The results of the selection process can be seen in the Counter on the top-center of the dashboard.
