

EDGE at Penn State

What is EDGE?

EDGE is Experiential Digital Global Engagement.

EDGE projects are often **6-8-week collaborations** with a focus on **one shared project embedded in an existing course**.

Professors do not need to completely re-design a course; they simply **either modify an existing project or create a new project** for the course that can be completed in collaboration with their international partner's students.

Projects include a global learning objective, technology (determined after project design), and assessment.

Professors evaluate their own students' work.

Flexible Elements of EDGE

(Determined by EDGE partners)

1

Delivery mode
(synchronous/asynchronous)

2

Technology

3

Type & length of
project

4

Assessment tool

BENEFITS OF EDGE

Future-Ready Students	Professors	Institution
<ul style="list-style-type: none">• Intercultural communication and competence• Project collaboration• Distance collaboration• Digital skills• Soft skills	<ul style="list-style-type: none">• Provide content for research, publications, and presentations• Develop new teaching competencies• Explore new technology tools• Network with colleagues around the world	<ul style="list-style-type: none">• Mobility for students and faculty• Increased visibility of institution• Strategic partnerships
