

# Floor Plan & Mood Board Toolkit

BY MAE DUMONT

# Hi! I'm Mae Dumont.

I'm here to help make your dream home come to life! This is a comprehensive presentation to help bring the ideas we have worked on feel a little more real.

I have made a series of floorplans based on your space's measurements, and have also begun showing off the colors and textiles that we can use to bring your personal style into the space in a new and unique way :)

# How it works

- This is your basic layout of the walls.
- You will be able to see where the windows and doors are located, and any structural changes we have proposed will be visible here.
- This is the basis for all of the rooms on the following pages, and has a scale of 1"-1'.

Let the fun  
begin!
