  - Kevin serves the Smeal College of Business community on a part-time basis, as the Events & Classroom Technology Support Assistant. He goes above and beyond to provide outstanding support, and to ensure each event is set-up for success. Most recently, we called upon Kevin to assist us with a special event. The event required us to connect a guest speaker from across the country via Zoom, coordinate the back-and-forth between the PowerPoint presentation and various camera angles, record the session so that others can later view it, and post the recording online. In preparation for the event, Kevin graciously assisted us with a practice-run on short-notice. He recognized areas we needed to address for the live session, and took extra time to learn new technologies so that the event would run as planned. The day of the event, he had everything set up and ready to go, and facilitated all of the moving parts with grace. So, thank you, Kevin. You rock--your hard work does not go unnoticed.
  - Know someone who rocks? Nominate them for the October YOU ROCK award!
