

BUILD THE

TALLEST

TOWER YOU CAN

!!!

YOU WILL GET:

Paper

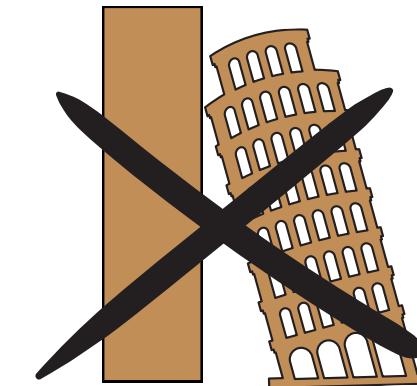

Tape

RULES:

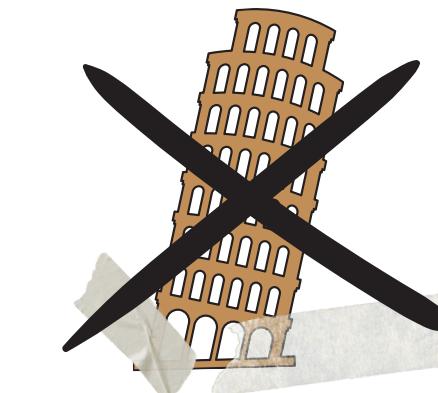

1) Your tower must stand on its own:

You can not hold it up with your hand.

It can not lean on something.

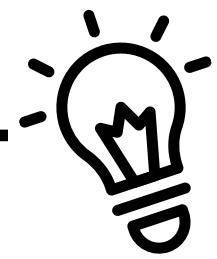

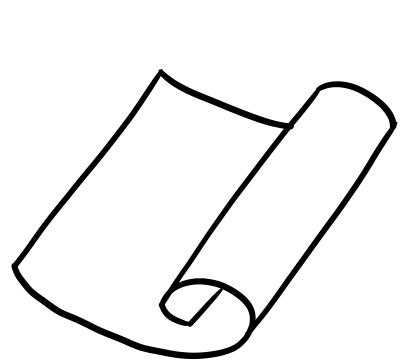

2) Your tower can not be attached to the surface it is on

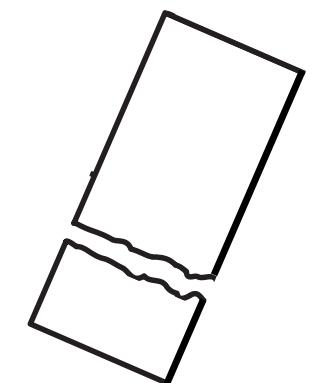

Your tower can not be taped to the floor or table.

 **WHAT ARE SOME DIFFERENT WAYS YOU CAN USE PAPER?** 

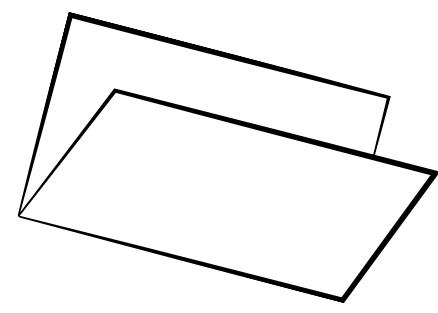

Rolling it?

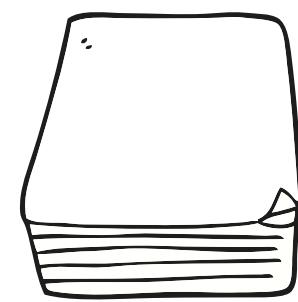

Tearing it?

Taping it?

Folding it?

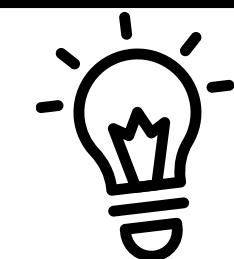

Stacking it?

 **LET'S THINK ABOUT IT!** 

What components do towers have?

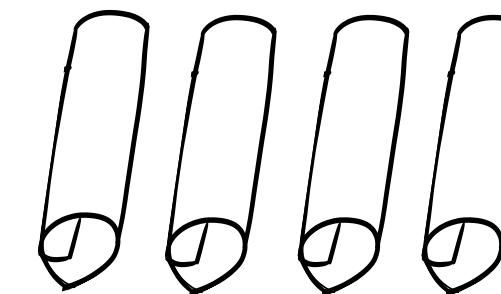

Supports? Base?

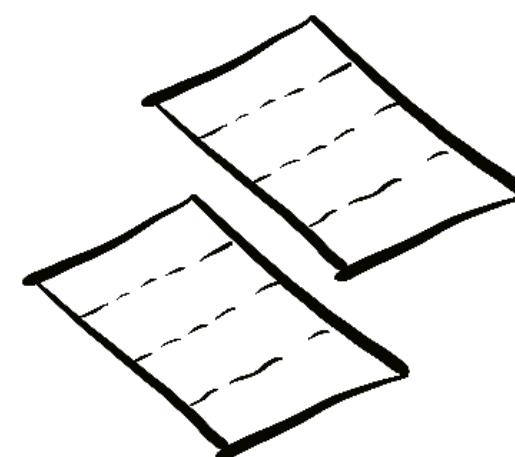

TEST IT:

 **WHAT CAN THESE DIFFERENT WAYS OF USING PAPER DO?** 

HERE ARE SOME EXAMPLES:

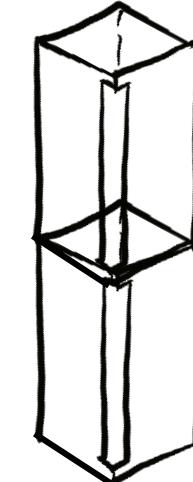

Rolled paper

Folded paper

Tower supports?

Stack and tape folded paper for height?

Gently shake the table!

Does your tower wobble? Stand still? Fall over? Why?

Parts of your tower are the weakest?
