ART HISTORY AMSTERDAM

A New Realism - Experiencing Dutch Art and Culture, Old and New, in The Netherlands

PROGRAM OVERVIEW

Who hasn't heard of Rembrandt, Vermeer, or Vincent van Gogh? These artists all hail from the small country of the Netherlands, wedged between Germany and the North Sea. This study abroad opportunity will offer the study of Dutch art and culture through both historical and contemporary lenses and on-site, within vibrant urban contexts. While the program's focus is art history within the broader cultural context of the Netherlands —with special attention to the Dutch tradition of representing scenes from daily life, as well as modern art and urban planning— other topics will also be addressed.
