We are thrilled to invite you to a dynamic presentation by Monica Duncan, a Transportation Operations Specialist from the Federal Highway Administration. Explore the world of Transportation Systems Management and Operations and discover your role in shaping the future of transportation. Monica will delve into the bigger role individuals play in the field of Transportation Operations, sharing real-world experiences and insights. Learn about the essential skills needed in this dynamic and critical space today and in the future. Whether you're an active participant or prefer to listen and absorb, this engaging session welcomes everyone. Bring your questions, thoughts, or simply your curiosity! Don't miss this unique opportunity to gain valuable insights and explore exciting possibilities in the world of transportation. See you there!

This event is free and open to the public.
