

A NeW

Adult Neurodevelopmental Wellness Project

WHAT WE DO

A class action lawsuit in 2015 known as the Trueblood Case determined that Washington state had failed to provide adults with neurodevelopmental disabilities with legally entitled services

Our interdisciplinary team provides crisis consultation services to adults with an intellectual and developmental disability (IDD) who have been found incompetent to stand trial with the goal of restoring these adults to their community of choice

INTERDISCIPLINARY TEAM

LED BY

Gary Stobbe, MD

Gary Stobbe, M.D., is a board certified neurologist and director of the Adult Autism Clinic at UW Medical Center. Dr. Stobbe focuses on helping patients with autism spectrum disorders in reaching their fullest potential and improve their quality of life.
