

LEARN ABOUT YOUR HEALTH CARE COVERAGE

Discover the difference between the Harvard University Student Health Program and your Blue Cross Blue Shield of Massachusetts Student Health Insurance Plan. See what's covered, and where to get care.

HOW YOUR COVERAGE WORKS

The Harvard University Student Health Program (HUSHP) has two parts that work together to offer comprehensive medical coverage: the Student Health Fee and the Blue Cross Student Health Insurance Plan (SHIP). The Student Health Fee covers most care at Harvard University Health Services (HUHS). The SHIP covers certain care nationwide and abroad. Find out what's covered by each, and where to get care when you're sick or injured. Scan the QR code to watch our video on how HUSHP works, what's covered by each part of the health program, and where to get care when you're sick or injured.

Questions?

If you have any questions about the Harvard University Student Health Program, please call 1-617-495-2008 or email mervices@huhs.harvard.edu.

SERVICES COVERED BY THE STUDENT HEALTH FEE

The Student Health Fee is required for all registered students who are enrolled as more than half-time at Harvard. Most of the care, including telemedicine visits, is covered at no cost when administered by HUHS, meaning you won't have to pay a copay, co-insurance, or deductible (see page 3 for more information). Coverage includes services related to:

- Allergies and asthma
- Counseling and mental health
- Dermatology
- Gastroenterology
- Neurology
- Nutrition
- Ophthalmology
- Orthopedics
- Physical therapy
- Podiatry
- Primary care
- Surgery consultations
- Urgent care
- X-ray/ultrasound

SERVICES AT HUHS THAT ARE NOT COVERED BY THE STUDENT HEALTH FEE

The services below are available at HUHS, but will be billed directly to you or your private health insurance plan if you've waived the SHIP. You should confirm coverage of these services with your private insurance plan.

Type of service	Billed to student	Billed to student's private insurance plan
ALLERGY SERUM	✓	
IMMUNIZATIONS	✓	
ROUTINE EYE EXAM	✓	
AMBULANCE TRANSPORT		✓
LABORATORY SERVICES (QUEST OR OTHER)		✓
OB/GYN SERVICES WITH ON-SITE OB/GYN GROUP		✓
PRESCRIPTION MEDICATIONS		✓
SERVICES FOR CARE RECEIVED OUTSIDE OF HUHS, EVEN WHEN REFERRED BY AN HUHS PROVIDER		✓

DID YOU KNOW?

Students who waive the SHIP still have coverage for many services at HUHS.

UNDERSTANDING YOUR BLUE CROSS PLAN

When you get care anywhere other than HUHS, your coverage will be determined by your SHIP.

This plan covers hospital visits, specialty care, and prescription medications, nationwide and abroad.

Before you get care, it's important to understand the difference between in-network and out-of-network care, when you'll have to pay for care, what services are covered, and if you have any visit limitations (see pages 5-6).

You have a PPO plan

With this plan:

- You can visit any doctor or hospital for covered services.
- In-network care will typically cost less than out-of-network care.
- You don't need a referral to see a specialist.

What's the difference between in-network and out-of-network care?

When you get care from an in-network doctor or hospital, you'll pay less for care because these providers have agreed to participate in your network.

If you see an out-of-network doctor or provider, you'll pay the most out-of-pocket costs because these providers don't participate in your network, and will charge you their full fee for services.

What is prior authorization?

Certain services and medications must be approved as medically necessary before coverage begins. This ensures that you don't pay more than you have to for unnecessary care. If a service or medication requires prior authorization, your doctor must request it before the service is performed or before the medication is prescribed.

Some services that require prior authorization include sleep management programs, hospital stays, MRIs, CT scans, genetic testing, and certain medications.

Important terms to know

Copayment—Also called a copay, this is the fixed amount you pay at the time of service.

Co-insurance—The percentage of the cost you're responsible for paying for covered services out-of-network, usually after the deductible has been met. Your plan pays the rest, excluding balance billing.¹

Deductible—The amount you pay for out-of-network health care services before your plan covers eligible expenses. Each plan year, your deductible resets on August 1 and runs through July 31.

You don't pay for preventive care

Getting preventive care is one of the most important steps you can take to stay healthy. Adult preventive care is covered only at HUHS, and provided at no cost to you. Other screenings, such as mammograms and colonoscopies, are completely covered by your SHIP, which means you won't have to pay any out-of-pocket costs.

You pay for diagnostic care

Diagnostic care includes services you receive when you're experiencing symptoms or are monitoring a specific condition. You're responsible for paying any out-of-pocket costs associated with the service, such as a copayment, co-insurance, or deductible.

¹ Balance billing occurs when an out-of-network provider sends a bill for the difference between their cost of service and the amount that your Student Health Insurance Plan pays for that service.

Adult routine/preventive care is only covered when provided by HUHS. Adult routine health checkups include services recommended by the U.S. Preventive Services Task Force. While these exams are covered by the Student Health Fee, labs and other testing would be covered by the SHIP, or billed to your private insurance plan.

IMPORTANT INFORMATION

When you choose preferred providers

You receive the highest level of benefits under your health care plan when you get covered services from preferred providers. These are called your in-network benefits.

This plan has two levels of hospital benefits for preferred providers. You'll pay more when you receive certain services at or from higher-cost-share hospitals, including inpatient admissions, outpatient day surgery, and some other hospital outpatient services. See the charts on pages 5–6 for what you'll pay.

Note: If a preferred provider refers you to another provider for covered services (such as a specialist), make sure the provider is a preferred provider so you can receive benefits at the in-network level. If the provider you're referred to isn't a preferred provider, you're still covered, but your benefits, in most situations, will be covered at the out-of-network level — even if the preferred provider refers you. It's also important to check whether the provider you're referred to is affiliated with one of the higher-cost-share hospitals listed below. Your cost will be greater when you receive certain services at or from these hospitals, even if your preferred provider refers you.

Higher-cost-share hospitals

Your cost will be higher at the hospitals listed below. Blue Cross will let you know if this list changes.

- Baystate Medical Center
- Boston Children's Hospital
- Brigham and Women's Hospital
- Cape Cod Hospital
- Dana-Farber Cancer Institute
- Fairview Hospital
- Massachusetts General Hospital
- UMass Memorial Medical Center

Note: Some of the general hospitals listed above may have facilities in more than one location. At certain locations, the lowest cost-sharing level may apply.

To Find a Preferred Provider:

- Look up a provider in the Provider Directory. If you need a copy of the directory or help choosing a provider, call the Blue Cross Member Service number on your ID card.
- Visit the Blue Cross Blue Shield of Massachusetts website at bluecrossma.com/findadoctor. Select PPO OR EPO as the network.

When you choose non-preferred providers

You can also obtain covered services from non-preferred providers, but your out-of-pocket costs are higher. These are called your out-of-network benefits. You must pay a plan-year deductible before you can receive coverage for most out-of-network benefits under this plan. A plan year means the 12-month period of time that starts on the original effective date of the group's coverage under this health plan (August 1) and continues for 12 consecutive months. A new plan year begins each 12-month period thereafter. Your deductible is **\$250** per member (or **\$500** per family).

Payments for out-of-network benefits are based on the Blue Cross Blue Shield allowed charge as defined in your benefit description. You may be responsible for any difference between the allowed charge and the provider's actual billed charge (this is in addition to your deductible and/or your co-insurance). See the charts on pages 5–6 for your cost share.

Your out-of-pocket maximum

Your out-of-pocket maximum is the most that you could pay during a plan year for deductible, copayments, and co-insurance for covered services. Your out-of-pocket maximums for medical benefits are **\$1,700** per member (or **\$3,400** per family) for in-network services and **\$7,500** per member (or **\$15,000** per family) for out-of-network services. Your out-of-pocket maximum for prescription medication benefits is **\$1,300** per member (or **\$2,600** per family).

Emergency room services

In an emergency, such as a suspected heart attack, stroke, or poisoning, you should go directly to the nearest medical facility or call **911** (or the local emergency phone number). You pay a copayment per visit for in-network or out-of-network emergency room services. This copayment is waived if you're admitted to the hospital or for an observation stay. See the chart on page 6 for what you'll pay.

Telehealth services

Telehealth services are covered when the same in-person service would be covered by the health plan and the use of telehealth is appropriate. Your health care provider will work with you to determine if a telehealth visit is medically appropriate for your health care needs or if an in-person visit is required. For a list of telehealth providers, visit the Blue Cross website at bluecrossma.org, consult Find a Doctor, or call the Blue Cross Member Service number on your ID card.

Utilization review requirements

Certain services require prior authorization through Blue Cross for you to have benefit coverage. This includes non-emergency and non-maternity hospitalization and may include certain outpatient services, therapies, procedures, and medications. You should work with your health care provider to determine if prior authorization is required for any service they recommend. If your provider, or you, don't get prior authorization when it's required, your benefits will be denied, and you may be fully responsible for payment to the provider of the service. Refer to your benefit description for requirements and the process you should follow for utilization review, including pre-admission review, pre-service approval, concurrent review and discharge planning, and individual case management.

Dependent benefits

This plan covers dependents until the end of the calendar month in which they turn age 26, regardless of their financial dependency, student status, or employment status. See your benefit description (and riders, if any) for exact coverage details. For more information, call HUSHP Member Services at **1-617-495-2008**.

Pediatric essential dental benefits

Your medical plan coverage includes a separate dental policy that covers pediatric essential dental benefits for members until the end of the calendar month in which they turn age 19, as required by federal law.

You must meet a plan-year deductible for certain covered dental services. Your deductible is **\$50** per member (no more than **\$150** for three or more members enrolled under the same family membership).

Your out-of-pocket maximum is the most that you could pay during a plan year for deductible and co-insurance for covered dental services. Your out-of-pocket maximum is **\$350** per member (no more than **\$700** for two or more members enrolled under the same family membership).

To find participating dentists, visit bluecrossma.com/findadoctor or call the Blue Cross Member Service number on your ID card.
