Instructor Comments

Describe the one best thing about the course or the instructor that was effective in helping you learn. If you could suggest one thing to improve the course, what would it be?

- This course is very informative and connects many topics together. One thing I will suggest is perhaps changing the tables for this course, because the small tables we used were inconvenient for a course with so many notes to take.
- Professor Böhler is a fucking god!!!

- The best thing and one thing to be improved may be the same in my opinion. The course material is very challenging but at the same time extremely interesting. I've seen other people's note from taking the class, and I can see that the class taught this semester is actually much harder than usual. It may be a good thing depending on whether students are here because they are interested by the topic. So I would say this choice makes the class very challenging and therefore pushes me to learn, but also a bit too challenging that for multiple times I've considered whether I should just withdraw from it.

Describe the one best thing about the course or the instructor that was effective in helping you learn. If you could suggest one thing to improve the course, what would it be?

- Prof Buhler has an extensive background in PDE and it shows in the classrooms. He has done a very good job of turning such a challenging course fun and interesting.
