

NAVIGATION GUIDE:

The Ability Project

From the NYU lobby at 370 Jay St
to the Ability Project.

Navigation Overview: Starting at the building entrance

Entrance to the building

Main Entrance

The main entrance is the Jay St. entryway. This entrance has three two-way traffic doors. The left door is an automatic sliding door. There are two standard doors on the right.

After passed the main entrance, at about 10 feet, there is another set of doors.

The doors are an automatic sliding door on the left and two standard doors on the right.

The Lobby

The lobby is an open space with the security desk at the front and to the left and followed by six automatic turnstiles. The first and sixth turnstiles are wheelchair accessible.

Once entering the building, walk straight ahead until you reach the security desk.

Security Desk

Each person must show their daily pass to the security guard.

Tap the NYU card on the right of the turnstile.

Visitor Meeting Area

Visitors can wait for their host by the green plant wall.

Once you pass the gate entrance, the plant wall is to the left, just behind the security desk.

Elevator Area

Once you pass the turnstiles and the security desk, walk straight ahead 60 feet, this is towards the elevators.

Before reaching the elevators there will be a wide entrance on the right and a doorway on the left. Pass these to reach the elevators.

The elevator area has 9 elevators, 4 to the right and 5 to the left.

On each side of the elevators there are 2 button panels for calling the elevators. One button panel is between the first and second elevators. The other panel is between the fourth and fifth elevator.

Each elevator beeps as it arrives and opens the doors.

The Ability Project is on the third floor.

Third Floor

Entrance to the third floor

The third floor facility has a glass entrance with two standard pull doors and vertical handles.

If you encounter a push door, this is the Emergency Exit and you are moving in the opposite direction.

Tap NYU card

There is a card reader on the wall to the right of the entrance. To enter, tap your card on the card reader.

Doors can open either manually or automatically.

To the right of the card reader there is a button that automatically opens the doors.

Entrance

Once passing the glass doors, there is a long reception table immediately in front of you.

Turn to the left and walk towards the Ability Project.

The Ability Project will be on the right side, 35 feet ahead. The entrance will be just passing a bench on the right.

The Ability Project

Ability Project

The Ability Project has a wide glass entrance with automatic sliding doors in the center.

The reception area is just beyond the entrance.

This entrance is known as the Ability Project Studio.

Entrance

There is a card reader on the right wall near the glass doors. This wall also has a door to a storage closet. The card reader is right next to the door, near the handle.

You must tap your NYU card to enter. Doors should open automatically.

Ability Project Studio

Once you enter, there is a sitting area to the left.

There are two sets of quarter-circle lounge couches with circular tables in front.

On the right of the studio there is a counter-cabinet that runs the length of the studio.

This room connects the three rooms of the Ability Project.

With the entrance behind you, the laboratory and office are at the far end of the room.

The classroom is on the left side.

Ability Project Classroom

The classroom door is on the left, once you pass the lounge couches. The door should be open.

Entering the classroom, the student desks and chairs are located to the left of the space.

The whiteboard covers the right side wall.

The projector/screen are located straight ahead. It is at the right corner of the room, about 35 feet from the classroom entrance.

Laboratory

After passing the lounge couches the Laboratory entrance is straight ahead. The laboratory door is to the left.

The laboratory and office doors usually remain open when someone is inside.

The Ability Project Laboratory is a rectangular multi-use space.

The tools are located at the long wall at the front of the entrance. In the middle, there are two big multi-purpose tables and chairs where you can sit.

Thank You
