| ID   | Response   |
|------|--|
| 1946 | Better education on the topic  |
| 1972 | Turn the lights off and make it so faucets can turn off  |
| 2003 | Have mandatory GUR classes on environmental sustainability for incoming students   |
| 2004 | light pollution prevention   |
| 2006 | Divestment out of fossil fuels and towards renewables<br>Incentivizing alternative modes of transportation while capping parking and automobile infrastructure to its current state<br>Offering more vegetarian and vegan options<br>Recognition and support of a student workers' union by the University   |
| 2009 | idk  |
| 2011 | More focus toward efficient and proper communication and instruction from instructors to students.   |
| 2017 | Idk  |
| 2028 | less plastic low quality gifts   |
| 2034 | more compostable food packaging  |
| 2058 | Replace older trash and recycling bins on north campus. They make it hard to tell what goes where.   |
| 2059 | Building a more resilient framework for westerns environmental approach and outreach would be interesting to see.  |
| 2070 | not sure   |
| 2074 | Immediate divestment by the Western Foundation from fossil fuel companies and transparency of the Western Foundation regarding its portfolio and specific climate risks the portfolio is liable to. I know that Western Foundation is not Western, but raising this issue everywhere brings light to it.   |
| 2080 | No pesticides, native plants only.   |
| 2089 | All those gift baggies you send out to newly admitted students are just full of low quality, mass produced trash. Either send nice things that students will be excited to use or don't send anything at all. Maybe 2 students each year will wear those \$3 WWU sunglasses and use the bag they come in.  |
| 2090 | Picking up trash on campus outside dorms and other locations.  |
| 2099 | Education on compost+recycling. Also food waste reduction.   |
| 2102 | Less waste with posters. I work with the AS and see so much get thrown out everyday. Western is very green on paper but not in practice.   |
| 2112 | Food waste   |
| 2116 | Giving out free food at on campus markets and retail sites that would otherwise be "composted" to reduce food waste.   |
| 2143 | By building more green areas instead of removing them for parking lots and pointless buildings like the longhouse  |
| 2144 | I really appreciate the composting at residence halls, but I often notice the compost being contaminated. I wish that there was more meaningful education to help combat this. I think Western is doing a much better job than many other campuses though.   |
| 2152 | More options for food that don't have plastic on them. Be that free food events, or more accessible food options for south campus because most of the food on campus is available only on north campus   |
| 2167 | All packaging be biodegradable.  |
| 2168 | WWU often is performative. That's pretty typical of a large institution. I'm not sure that there's a whole lot that can be done about that under our current system to be honest. I hear lots of stuff about what we as individuals should do but don't see a lot of institutional resources going to actually fixing things with big impacts. We can talk a big game about shorter showers, but leaving building lights on all night long when no one is inside is absurd. Also, heating and cooling in buildings like AGC-- why are the entrance ways being heated to such an insane |

|      |  |
|------|--|
|      | degree? Seems like a waste of energy.  |
| 2171 | not sure   |
| 2179 | I would like to see the enforcement of no dogs off leashes as I have friends with service dogs. I would also like to see your professors trained in service dog educate as well as disability knowledge.   |
| 2180 | Not sure.  |
| 2193 | more solar panels, sourcing food from more sustainable sources, more motion sensor lights, and better education on recycling   |
| 2194 | get rid of bond hall   |
| 2196 | Bidets in the bathrooms!   |
| 2208 | Get rid of the steam plant and fix the library so that energy isn't being wasted to heat the library year round. Including in the summer when it is entirely unnecessary.  |
| 2213 | Different, renewable energy source (the boilers in Fairhaven are all between 45-70 years old and need to be replaced).   |
| 2220 | being more accessible to disabled service dog handlers. You don't handle fake service dogs seriously or efficiently and there are not nearly enough places to dispose of dog waste.  |
| 2221 | Prices for food on campus is extremely expensive. Pricing in general for everything is extremely high.   |
| 2223 | Be more active into investing in the environmental building which is to serve the purpose of educating students to learn about renewable and sustainability.   |
| 2235 | End contract with Aramark  |
| 2243 | N/A  |
| 2245 | Educate the student body on the proper use of recycling, garbage, and compost bins.  |
| 2258 | I work at the dining hall and the amount of food waste is insane   |
| 2280 | More dining services switching to compostable waste. It's odd to see some like Zoe's Bagels focus on it more than others.  |
| 2283 | More wheelchair accessibility!   |
| 2291 | Making an attempt at the bare minimum to wean off of the steam plant, whether by using heat pumps for heating, renewables for heating//electric or other means.  |
| 2293 | Not sure how they are contributing, but I know the dining hall is not sustainable for the health of students or the environment  |
| 2302 | Local food options, more vegan alternatives for dining.  |
| 2308 | More clean energy in buildings<br>Less waste in market food  |
| 2314 | I don't know   |
| 2316 | Managing food waste, better public transport in bellingham   |
| 2317 | Make people of color a priority to this institution. Racism and environmentalism are entwined, this school can't move forward if you are not actively making this a less racist school.  |
| 2318 | I don't care about the environment   |
| 2319 | Get rid of Armark!   |
| 2332 | solar panels, more plants / green spaces, more recyclable/reusable packaging options.  |
| 2344 | Maybe more solar power   |
| 2353 | Stop using Aramark and use a more sustainable reputable dining service or make your own.   |
| 2357 | More solar or alternative means of clean energy generation.  |
| 2361 | N/A  |
| 2368 | Western needs either a sauna, steam room, or a cold plunge in the gym. They are extremely important for muscle recovery, keeping good health, and I know for a fact most students and almost 90% of gym goers would love to use them if they were added. |
| 2375 | More sources of green energy   |
| 2381 | less single use plastic  |
| 2388 | More recycling areas   |
| 2404 | N/A  |
| 2406 | Ditch Aramark!!! You cannot say you stand for sustainability and equity and then support Aramark. I would like to see western cut the contract and no longer support modern day slave labor! The food is gross anyways.                                  |
| 2408 | Maybe more study spots inside and outside, most of the time I am searching for a table to find   |
| 2422 | The more emphasis on public transportation the better.   |
| 2426 | less waste in dining halls and on-campus markets. less plastic packaging   |
| 2427 | This question doesn't make sense to me. How would I know anything about the sustainability of how this school is run? I don't know what kind of fertilizer you guys are using for the plants, I don't know if you use renewable electricity etc.         |
| 2434 | Since plastic water bottles are removed, wouldn't it make sense to also remove plastic soda bottles and other things in plastic?   |
| 2440 | Unsure   |

| 2621 | I don't know specifics, more of a systemic issue that western isn't going to fix.   |
| 2622 | Don't throw away the food at the dining hall  |
| 2641 | I'd love to see more greenery :)  |
| 2643 | Better education and awareness of recycling practices (e.g. what can and cannot be recycled on campus).   |
| 2649 | Maybe instead of a grass lawn having a native clover lawn or just using more keystone native plants in general  |
| 2666 | make a fountain that dumps \$100 bills on the ground for students   |
| 2678 | more inclusion of clubs and sports that are constantly overseen, there is a large community of POC students that feel under-represented and hide within the shadows due to the fear of racism. This school needs to love its POC students just as much as they love their white/white-passing students. |
